

Broomfield School Risk Assessment for Covid-19
Based on Enfield MODEL RISK ASSESSMENT FOR COVID-19 – Secondary Schools – V10

Notes about this model Risk Assessment

Many of the government links and guidance documents now take you to menus where you select a range of other links. Where we have been able to, we have provided direct links to the relevant documents and attempted to provide a concise description of requirements. Please note there may well be other documents (links) associated with the links we have provided.

We have taken out specific references to social distancing, however, the control measures for consideration are still left in as you may wish to still employ these in the interest of good practice e.g., consider room occupancy etc.

We have also reworded some of the control measures where they referred explicitly to actions that can be taken as described in either Government or HSE guidance documents; these have now been amended in the assessment and should form suggestions for your consideration. We believe these recommendations still provide good practice albeit not prescribed in the Government documents.

There are a number of changes in the risk assessment and some measures which are no longer in the Government guidance and are left in for your consideration.

We have produced two versions of the risk assessments:

The model generic risk assessment will show where amendments have taken place (yellow for insertion and red for deletion). Reading through that version will enable you to see where we have made changes.

This model risk assessment will have the deletions and amendments made without highlight. You can use this version as is, but should amend for your local arrangements in your school.

If you wish to amend yourself to be in line with guidance more appropriate to your specific situations you should do so.

Broomfield School Risk Assessment for Covid-19
Based on Enfield MODEL RISK ASSESSMENT FOR COVID-19 – Secondary Schools – V10

NOTES:

As an employer, you must protect people from harm. This includes taking **reasonable steps** to protect your workers and others (pupils, visitors, contractors, delivery staff) from coronavirus. This is a COVID-19 model risk assessment and it'll help you manage risk and protect people. Applying the risk assessment process for COVID 19 requires that you must:

- identify what work activity or situations might cause transmission of the virus
- think about who could be at risk
- decide how likely it is that someone could be exposed
- act to remove the activity or situation, or if this isn't possible, control the risk

This model risk assessment is designed to fulfil those requirements and is in line with the recommended process using the Health and Safety Executive's (HSE) approach as laid down in their 'Five Steps to Risk Assessment' This is a step-by-step process for controlling health and safety risks caused by hazards in the workplace- in this to reduce risks from COVID 19.

You can use this document to help you make sure you have covered what you need to do to keep teachers, workers, pupils and others safe. Once you have completed your risk assessment you will also have to monitor to make sure that what you have put in place is working as expected.

Based on Enfield MODEL RISK ASSESSMENT FOR COVID-19 – Secondary Schools – V10

The Layout

This risk assessment is laid out in two sections; 'Part 1 – **General Risk Assessment** for School and 'Part 2 – **School Settings**'.

This document model aims to look at and use guidance and advice from authoritative sources, in this case the HSE and UK GOV. (DofE).

Part 1 – General Risk Assessment for School, which takes into account most activities and visitors etc and can also be used for other premises or sites used such as children's centres etc, it is taken from the HSE's general guidance on risk management and example risk assessment for COVID 19. The content in this section is taken directly from the HSE model and points raised are recommended areas to cover in all workplaces. By checking through this it will enable you to; make sure you are looking at areas or groups that may not be necessarily covered in a straightforward school risk assessment, provide assessment for non-school activity e.g. building work etc, and can be used to consider if it can be applied to your school setting.

Part 2- School Settings, is as stated and is specifically centred on normal school operation. The information here is sourced from UK GOV documents and the links for these are listed in the main body and on the left of this document.

LEGAL REQUIREMENT

The legal requirement in a nutshell is to reduce risk 'as low as reasonably practicable' (ALARP). You are required to do this using risk assessment and this document provides a model process for this. By so doing you are also meeting with the strong moral obligations to reduce risk in a school environment.

REMEMBER;

THIS DOCUMENT IS THERE TO BE USED AS A MODEL AND SHOULD BE ADAPTED FOR YOUR SCHOOL SETTING AND ITS NEEDS.

Coronavirus Risk Assessment				
Activity:	Risk Assessment for Schools in response to Coronavirus	No. of pages:		Page number:
				8
What are the hazards?	Who is at risk and How would they be harmed?	CONTROLS What is currently done to reduce / control the risk?	What further action do you need to consider to control the risks? -What more can be done to reduce risk?	Action by whom, by when?
<u>PART 1 – GENERAL RISK ASSESSMENT FOR SCHOOL</u>				
Increased risk of infection due to mutations of the Coronavirus.	All staff, pupils and others may be at greater risk of contracting the virus due to variant strains	All mitigation measures listed throughout the risk assessment are still relevant. The increased chance of infection highlights the importance of adherence to control measures. Where practicable consider reviewing controls and monitoring/checks on behaviours and controls taking place. To safeguard the health of the teaching workforce and keep as many staff, pupils and students in school and college as possible, the Government have made rapid lateral flow tests available to schools and colleges. Schools COVID-19 operational guidance - GOV.UK (www.gov.uk)	Staff should undertake twice weekly home tests whenever they are on site until the end of September, when this will also be reviewed.	Senior Leadership Team.

<u>PART 2 – SCHOOL SETTINGS</u>				
What are the hazards?	Who is at risk and How would they be harmed? (e.g. staff, public, contractors – trip, slip, fall, assault)	CONTROLS What is currently done to reduce / control the risk?	What further action do you need to consider to control the risks? -What more can be done to reduce risk?	Action by whom, by when?
Increased risk of infection due to mutations of the Coronavirus.	All staff, pupils and others may be at greater risk of contracting the virus due to variant strains.	<p>All mitigation measures listed throughout the risk assessment are still relevant. The increased chance of infection highlights the importance of adherence to control measures. Where practicable consider reviewing controls and monitoring/checks on behaviours and controls taking place.</p> <p>To safeguard the health of the teaching workforce and keep as many staff, pupils and students in school and college as possible, the Government have made rapid lateral flow tests available to schools and colleges.</p> <p>Schools COVID-19 operational guidance - GOV.UK (www.gov.uk)</p>	Staff should undertake twice weekly home tests whenever they are on site until the end of September, when this will also be reviewed.	Senior Leadership Team.
Pupils mixing during summer holidays may	Pupils and Staff at greater risk on return	All secondary school pupils should receive 2 on-site lateral flow device	Secondary schools should also retain a small asymptomatic testing site	

Broomfield School Risk Assessment for Covid-19
Based on Enfield MODEL RISK ASSESSMENT FOR COVID-19 – Secondary Schools – V10

<p>cause increased risk of infection</p>	<p>from Summer holidays</p>	<p>tests, 3 to 5 days apart, on their return in the autumn term.</p> <p>Settings may commence testing from 3 working days before the start of term and can stagger return of pupils across the first week to manage this. Pupils should then continue to test twice weekly at home until the end of September, when this will be reviewed.</p> <p>Staff should undertake twice weekly home tests whenever they are on site until the end of September, when this will also be reviewed.</p>	<p>(ATS) on-site until further notice so they can offer testing to pupils who are unable to test themselves at home.</p>	
<p>Teachers working from home and pupils using DSE equipment.</p> <p>Note: This may have ceased or reduced in many cases. However, where home working has been decided upon these controls etc. should still be followed.</p>	<p>Staff working from home and pupils studying from home.</p> <p>Musculoskeletal disorders as a result of using DSE at home for a long period of time</p>	<p>For Schools with access to Schools Health & Safety Team Service, refer to the Schools Hub advice sheets; “DSE Self Assessment – COVID-19 – Sheet No. 4 and Working from Home for Schools – COVID-19 CBT Advice Sheet”.</p> <p>Follow guidance on display screen equipment in the HSE Protect homeworkers page</p> <p>HSE - Protect home workers (Coronavirus)</p>	<p>Further information on how to set up a workstation for short duration home working and also what to do for long term home working can be found on HSE’s HSE - Protect home workers (Coronavirus)</p> <p>It is important to consider breaks from this work. 5 minutes every hour is better than 15 minutes every 2 hours. Consideration to how this</p>	

Broomfield School Risk Assessment for Covid-19
Based on Enfield MODEL RISK ASSESSMENT FOR COVID-19 – Secondary Schools – V10

		<p>HSE - Coronavirus/Working Safely / Protect People</p> <p>There is no increased risk for people working at home temporarily but if this arrangement becomes long term the risks should be assessed</p> <ul style="list-style-type: none"> - For all people working at home using display screen equipment (DSE) put in place information and training on how to protect themselves, e.g. take regular breaks, stretching exercises, set the equipment up properly - For people working at home longer term complete a DSE assessment with them and identify what equipment is needed to allow them to work safely at home - Schedule or build in breaks of minimum of 5 minutes every hour for pupils studying. 	<p>can be scheduled in could include actual separate breaks or in lesson time outs.</p>	
Preparation of school and ongoing compliance checks	Pupils Staff	<p>Premises and utilities have been health and safety checked and building is compliant (use usual compliance checklist)</p> <ul style="list-style-type: none"> • Usual premises checks • Water treatments/checks (e.g. legionella) 	<p>Carry out a formal / recorded full pre-opening premises inspection.</p> <p>Consider if there is space and ability to clean between lettings. Consider</p>

			advice and possible outbreaks of COVID; this will require a full review of measures and this assessment.	
<p>For women less than 28 weeks pregnant with no underlying health conditions that place them at a greater risk of severe illness from coronavirus (COVID-19)</p>	<p><i>You must first have a workplace risk assessment with your employer and occupational health team.</i></p> <p><i>Then, you should only continue working if the risk assessment advises that it is safe to do so.</i></p> <p><i>This means that your employer should remove or manage any risks. If this cannot be done, you should be offered suitable alternative work or working arrangements (including working from home) or be suspended on your normal pay.</i></p> <p><i>Your employer should ensure they are able to adhere to any active national guidance on social distancing.</i></p> <p><i>Some higher risk occupations such as those with greater public contact or in healthcare may carry a higher risk of exposure to the virus. In healthcare settings this may include working in specific higher risk areas or higher risk procedures as summarised in the Public Health England publication <i>Guidance on Infection Prevention and Control</i> https://www.gov.uk/government/publications/wuhan-novel-coronavirus-infection-prevention-and-control</i></p> <p><i>You should be supported by your employer with appropriate risk mitigation in line with recommendations to staff arising from workplace risk assessment.</i></p> <p><i>If alternative work cannot be found, advice on suspension and pay can be found in HSE guidance.</i></p>			
<p>The following recommendations apply for pregnant women who are 28 weeks pregnant and</p>	<p><i>If you are 28 weeks pregnant and beyond, or if you are pregnant and have an underlying health condition that puts you at a greater risk of severe illness from COVID-19 at any gestation, you should take a more precautionary approach.</i></p>			

Broomfield School Risk Assessment for Covid-19
Based on Enfield MODEL RISK ASSESSMENT FOR COVID-19 – Secondary Schools – V10

<p>beyond or with underlying health conditions that place them at a greater risk of severe illness from coronavirus</p>	<p><i>This is because although you are at no more risk of contracting the virus than any other non-pregnant person who is in similar health, you have an increased risk of becoming severely ill and of pre-term birth if you contract COVID-19.</i></p> <p><i>Your employer should ensure you are able to adhere to any active national guidance on social distancing and/or advice for pregnant women considered to be clinically extremely vulnerable (this group may previously have been advised to shield).</i></p> <p><i>For many workers, this may require working flexibly from home in a different capacity.</i></p> <p><i>All employers should consider both how to redeploy these staff and how to maximise the potential for homeworking, wherever possible.</i></p> <p><i>Where adjustments to the work environment and role are not possible (e.g. manufacturing/retail industries) and alternative work cannot be found, you should be suspended on paid leave. Advice on suspension and pay can be found in HSE guidance.</i></p>			
<p>Mental health and wellbeing affected through isolation or anxiety about coronavirus</p> <p>Potential for Stress or Anxiety caused by fears associated with the virus, isolation, potential bereavement situations or other</p>	<p>All staff and Workers- anxiety stress or other mental health issues.</p>	<p>Follow guidance on stress and mental health</p> <p>GOV.UK - Extra mental health support for pupils and Teachers</p> <ul style="list-style-type: none"> - Have regular keep in touch meetings/calls with people working at home to talk about any work issues - Talk openly with workers about the possibility that they may be affected and tell them what to do to raise concerns or 	<p>Further advice and support</p> <ul style="list-style-type: none"> - Share information and advice with workers about mental health and wellbeing - Consider an occupational health referral if personal stress and anxiety issues are identified 	

Broomfield School Risk Assessment for Covid-19
Based on Enfield MODEL RISK ASSESSMENT FOR COVID-19 – Secondary Schools – V10

<p>effects from the changes to living and working.</p>		<p>who to go to so they can talk things through</p> <ul style="list-style-type: none"> - Involve workers in completing risk assessments so they can help identify potential problems and identify solutions - Keep workers updated on what is happening so they feel involved and reassured - Discuss the issue of fatigue with employees and make sure they take regular breaks, are encouraged to take leave, set working hours to ensure they aren't working long hours 	<ul style="list-style-type: none"> - Where you have an employee assistance programme encourage workers to use it to talk through supportive strategies 	
<p>Moving around, evacuation and use of the building by staff or pupils that may be affected by COVID-19 arrangements e.g., one-way systems</p>	<p>Staff and pupils</p> <p>HOW Disability might impact on how staff can move around the building or use the adjusted workplace</p>	<p>Headteachers/Managers to discuss with and consider needs of staff on how the adjustments in the school will impact on them or might pose a new or different risk to them.</p> <p>Considering whether you need to put in place any particular measures or reasonable adjustments to take account of duties under the equalities legislation. Carry out or employee needs risk assessments if appropriate.</p>	<p>Put systems in place so people know when to notify you that they fall into one of these categories, e.g. they start chemotherapy or are pregnant</p>

<p>Note: No pupil should be denied education on the grounds that they are not wearing a face covering</p>		<p>The government has removed the requirement to wear face coverings in law but expects and recommends that they are worn in enclosed and crowded spaces where you may come into contact with people you don't normally meet. This includes public transport and dedicated transport to school or college.</p> <p>You may assess that in some circumstances that it would be better to wear face coverings and in which case you can decide to do so.</p> <p>If it is decided that face coverings are required face visors or shields should not be worn as an alternative to face coverings. They may protect against droplet spread in specific circumstances but are unlikely to be effective in reducing aerosol transmission when used without an additional face covering. They should only be used after carrying out a risk assessment for the specific situation and should always be cleaned appropriately.</p>	<p>COVID-19 operational guidance - GOV.UK (www.gov.uk)</p> <p>For more information), a director of public health might advise you that face coverings should temporarily be worn in communal areas or classrooms (by pupils staff and visitors, unless exempt). You should make sure your contingency plans cover this possibility.</p>	
<p>Travel between schools or other travel whilst at work</p>	<p>All travelling staff and pupils</p>	<p>Supply teachers, peripatetic teachers and/or other temporary staff can move between schools. They should ensure they follow any school procedures and</p>

	compromise social distancing etc.			
Educational visits during the COVID-19 Pandemic	Pupils, staff and others can pass on or pick up infection	<p>Educational day visits</p> <p>Any educational day visits must be conducted in line with relevant coronavirus (COVID-19) secure guidelines and regulations in place at that time. This includes system of controls, such as keeping children within their consistent groups and the COVID-secure measures in place at the destination. Refer to Government guidance on the link below as situations might change.</p> <p>https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/schools-coronavirus-covid-19-operational-guidance#educational-visits</p>	Schools should undertake full and thorough risk assessments in relation to all educational visits to ensure they can be undertaken safely. As part of this risk assessment, schools will need to consider what control measures need to be used and follow wider advice on visiting indoor and outdoor venues. Schools should consult the health and safety guidance on educational visits when considering visits.	SLT
Extra-Curricular activity	Spread of infection in breakfast or after school club or extra-curricular activity	<p>This is a complex area that changes quite a lot and direct reference should be made to the Government guidance.</p> <p>GOV.UK - Government Publications - Actions for Schools during the</p>	Monitor Government guidance for latest advice on what more can be done.
